

# Graphic Organizer- Perspective Taking Chart- Family Example

Please add information to the chart that helps an individual understand the perspective of self and others.

Social Situation	What I Think	Consequences of My Actions	What Others May Think	Instead of (What to Do Next Time)
<p>Going swimming in my neighbor's pool</p>	<p>It's hot today. I want to go swimming. My neighbor has a pool. I want to cool off in their pool. I am going to go over and swim.</p>	<p>My neighbors called my parents. My parents were upset that I went swimming in my neighbor's pool without first asking them. My parents yelled at me.</p>	<p>Neighbors: It is our pool and our family swims in our pool. Sometimes we invite other people to swim in our pool. We don't want anyone swimming in our pool that is not invited.</p> <p>Parents: We are upset with Ciara. Ciara needs to ask our neighbors if she can swim in their pool. If the neighbors say it is ok, then she can swim in their pool. If they say no, Ciara needs to find another way to stay cool.</p>	<p>I need to ask the neighbors if I can swim in their pool. If they say yes, I can ask what day and time to put on my calendar. If they say no, I need to find another way to stay cool. I could use the hose in our backyard or ask mom and dad to take me to the public pool down the street.</p>
