

Reflection Questions - DB101

Name: _____ Date: _____

You have spent time exploring DB101 and how working and benefits affect income. Answer the questions below after completing the Take 5 DB101 lesson.

1. After doing the two plans on the estimator, what information may change when you turn 18 years old? (e.g.: healthcare, school attendance, income amount, etc.)
2. Review the visual graph from the estimator of earned income on your summary. When you review these, what do you notice? What does it tell you about your current earned income? What does it tell you about your future income and choices/expenses?
3. It is not uncommon to still have questions; make an action plan on how to connect with a benefits planner to talk about increases in pay or attending more school.
